

## Questions to Ask Your Dermatologist About Image-Guided SRT

When it comes to skin cancer, it is important to understand all your treatment options. It is also important to talk with your dermatologist about your personal needs and treatment goals. **Print this guide and bring it to your next appointment.** The questions will help you talk with your dermatologist about Image-Guided SRT and if it is the right treatment for you. Take a friend or family member with you to help listen and write the responses below.

1 How is Image-Guided SRT right for the type of skin cancer I have?

---

---

2 What is Image-Guided SRT treatment like? How does it work?

---

---

3 Can I still do my normal activities while getting treatments?

---

---

4 Should I expect any side effects or scarring during or after treatment?

---

---

5 How will I know the treatment is working and when my skin cancer has gone away?

---

---
